George Baumgarten & **Lisa Hewitt-Dick**, co-leads for
Cohasset Harbor Climate Resilience Initiative

Cohasset Harbor Climate Resilience Initiative

A View from Beacon Hill: Climate-related Funding Opportunities

Objectives

- Explore climate resilience related to Cohasset harbor
- Build consensus among stakeholders
- Prioritize future actions
- Increase knowledge of relevant data & resources
- Help prepare for Cohasset Community Climate Summit

Climate Resilience

“In the context of climate change, resilience is the ability of a community to rebound following a shock such as a natural disaster. Building resilience requires not only recognizing potential hazards like extreme weather events, but also understanding the underlying vulnerabilities that may affect recovery from them.” (bsr.org)
